

Directions for Completing the Answer Grids

1. Work the problem and find an answer.
2. Write your answer in the boxes at the top of the grid.
3. Print only one digit or symbol in each box. Do not leave a blank box in the middle of an answer.
4. Under each box, fill the circle that matches the digit or symbol you wrote above. Make a solid mark that completely fills the circle.
5. Do not fill in a circle under an unused box.
6. Mixed numbers cannot be entered into an answer grid and cannot be accurately scored. Enter mixed numbers as improper fractions or decimals.
7. See below for examples on how to correctly complete an answer grid.
